Historical Shipbuilding Chart

The Historical Shipbuilding Chart details historical additions to the Japanese, British and U.S. shipyards. All ships are started in the indicated season and then either advanced normally (default) or accelerated as indicated under the Acceleration column. See 27.7272B for rules concerning acceleration (3 BRPs of acceleration) and maximum acceleration (6 BRPs of acceleration).

Japan

Mandatory Additions to Shipyard, 1939-1941
